230 Hamlin People Voted Wet 5 (Five) Want No Water

Hamlin has gone "WET" for once in its history . . . 230 property-tax payers in Hamlin voted "WET" on the water proposition last Saturday—5 (FIVE) persons don't want any water, unless perhaps the FIVE accidentally scratched out the wrong paragraph . . . really let us all call it unanimous for water in Hamlin, and more water Hamlin needs.

Now lets get down to serious thoughts and statements:—Hamlin has shown that she wants WATER from somewhere. Hamlin people too well know that this town must have water, more water and if possible better water if the town is even to hold its own . . . plenty of average grade water will insure this town to become one of the best of all the West.

So far the Herald has heard but one person indicate that he feels the proposed source from which to get more water is impractical—maybe he is joking. So if he is in earnest, its up to that person or anybody else to say a better method than going to Dry California Creek. Lets draw on our imagination a little: Suppose there were great canyon crags along that stream, narrow and high, and by building a dam, say, thirty feet high, it would not hold water just so far up the creek, maybe not so far as flat creek bed, it would just be a bit narrower and no more water. Now there is available out on Dry Callie, several places where a dam thirty feet high may be built, and instead of the water being in a deep narrow gorge, maybe a half mile long, the water will be just as deep and perhaps a mile long and three times as wide. So reduce this idea to a simple form, it appears as reasonable to secure water on that stream as if it was bordered by gypie rock hills. The water bonds are voted and are payable out of water revenues—the use of the water will pay off the bonds.

Sale of the water revenue bonds is the next thing. They should be sound and valid, because they were authorized by due process of law, with full and complete information of the people. The government is anxious to co-operate with communities in the construction of worthwhile enterprises, and unless there is a hitch somewhere, work should be ready to get underway within a year or less. But let us remember there are many angles of law to pass around before any water available from the South.

Mrs. Joe Keahl of Lubbock came down for the week-end with her parents, Mr. and Mrs. J. A. Holden west of Boyd Chapel. Also Mr. and Mrs. Carl Holden and children of Abilene were over for a Sunday visit.

OUR ADVERTISERS

The operation of a newspaper depends largely upon the income from advertising. The Herald realizes the need of advertising in Hamlin, perhaps more than any one else. Advertising will not do all the trick, but it is the main-spring that keeps alive any kind of business.

A few days ago, Ye Editor heard a groceryman say, "In business there are three things necessary—Merchandise, Advertising, Merchandising the Merchandise." The local paper carries the message of the merchant when permitted.

This week readers will note the following business houses represented:

Strauss Dry Goods Co. has had a special advertising man, Mr. Dickens from Dallas this week, assisting in getting ready for a Sales campaign that will open Friday. Thousands of circulars and a double page ad. Also this firm, in connection with their sales campaign, staged a "style show" at the Ferguson Theatre, Thursday afternoon—it was a free show.

This week you will find also the following:

The Safeway Store—Groceries, Terrell's Grocery and Market, Conoco Oil Products, Texaco Oil Products, Retail Merchants Association, W. L. Boyd—Cotton, Harley Sadler Shows, Santa Fe Railway, Hamlin Cotton Oil Mill, Texas State Fair, Inzer Pharmacy, Waggoner Drug Co., Bowman Shoe Shop, Dr. Joe McCrary, The Rose Shoppe, Ferguson Theatre, and a lot of want ads. Look over every one — you can't tell that some of them will mean money in your pocket, or information in your head.

A. G. Arnett who has been spending the summer with his daughter, Mrs. Witt, in Springfield, Mo., returned home last week. Mr. Arnett returns looking improved in health.

Mr. and Mrs. Curtis Martin and daughter, Miss Marian, returned Monday from a visit to San Antonio and San Marcos.

Kurt Schoemann and his mother, Mrs. Freida Schoemann went to Sweetwater, Wednesday to keep their most important holiday, Yom Kippur, meaning the Day of Atonement. They attended the services in the roof garden of the Blue Bonnet Hotel.

CONGRESSMAN SPOKE TO LIONS, ROTARIANS

Hon. CLYDE L. GARRETT

Tuesday the Hamlin Lions had as their guests, the Hamlin Rotarians and the two clubs had as their guest Hon. Clyde L. Garrett, Congressman of the 17th District. In addition, there were a number of outside guests, and the capacity of the Lions' Den at the Model Hotel was full up.

This was the first time Mr. Garrett had spoken to a group of Hamlin citizens, since his election, two years ago.

Mr. Garrett is a very "approachable" man, and he has a way of making himself easy in any crowd of people. It was a noticeable thing in his speech, that he refrained from any hint that "I am your Congressman." He hardly mentioned Washington, and then not in a manner relating to government. Mr. Garrett, especially thanked the people of Hamlin for their friendship and confidence they had given him. He cracked a few well placed jokes and then took for his "text," an appealing subject—"True Friendship"—from several angles he stressed this as the most important human tie when true friendship prevails.

While in Hamlin a number of persons contacted him regarding some public matters, and also a delegation from Fisher County was over, however Mr. Garrett had an appointment in Rotan, Tuesday night, to speak at the Luncheon Club annual banquet.

Help! Help!

The Girl Scouts build a fire place in their cabin, by giving us all of your old clothes for a Rummage sale.

We will be grateful if those who ated your things this last week, and tell you that we made a good start, but we need a lot more to be able to reach our goal.

We will be grateful to those who have old clothes to discard will give them to us. Call us and we will get them.

ELVA GREENWAY,
Scout Captain.

PIED PIPERS TO PLAY ALBANY LIONS

All indications point to another football game in Hamlin this Friday.

It would seem that the Pied Pipers are going to pull the Albany Lions tail to a good roar right here on the home grounds.

It is reported that the Albany team "is a he-lion outfit and have claws like a tiger—and are coming over to devour our Pipers. So this means a great crowd of local fans will be right down there to see the scrap. It is the Piper's first conference game, and the fourth time this season to go on the field against a team. First they played Rotan, then Aspermont, and lastly the Abilene B. team.

The admission is 20 and 35 cents this time, and the boys can use all the chink they can get. Maybe the stores will help out the boys by a few prizes . . . we note that one grocery house, Mr. Terrell is offering a nice prize for the first touch-down this Friday. The Herald is offering a DOLLAR to the boy who makes the second touch-down. The boys need a tip for valor. This is not all that the boys will get, and you had better watch for results. It is noble sometimes for a team to get beat, but who wants defeat all the time. Lets play the game with the Pipers and this will make a better team. Up and to 'em Pipers, and then listen to the yells.

BABY BURIED TUESDAY

Little Janice Lee McDaniel, the eighteen months old daughter of Mr. and Mrs. George McDaniel died at the home of her parents early Monday morning. Funeral services were conducted in the home, Tuesday morning at 10:00 o'clock by Rev. J. Henry Littleton assisted by Rev. Smith.

Burial was made in East Cemetery under the direction of Barrow Undertaking Company.

BIG SWEET POTATOES

PRODUCED IN JONES CO.

Folks, have you ever really surveyed this good old Jones County for the purpose of seeing just how well balanced it is for a variety of products.

It is recognized as a leading cotton county, fine for feed crops, and in some sections is a wheat and oat country. There runs through the entire length from east to west a deep sandy belt that is excellent for fruits and vegetables, a kind of "throw-in-between" strip where things will grow in the dryest spells.

This week, W. E. Newsom visited the Herald and at first we thought he was an agent or salesman for a Porto Rico Sweet Potato firm. He was carrying a couple of the largest, sleekest, fattest Yams one could ever hope to see . . . and they had weight . . . one scaled two and three-fourth pounds and the other only eight ounces less. Mr. Newsom's farm is about two miles west of Boyds Chapel. He has two acres of potatoes this year and his yield is dandy, although it has not rained since in July.

Mr. and Mrs. James Starkey, of San Bernardino, California came Wednesday to visit W. L. Cash and wife. Mr. Starkey was an early railroader in Hamlin.

Mrs. L. S. Sparks and daughters, Robbie and Mary and her mother, Mrs. J. C. McCarley left Friday for Floydada to spend a short time and to join Mr. Sparks who is there receiving Government cotton.

Mrs. H. G. Hull and sons, David and Calvin returned Friday from a seven weeks stay in Fort Worth where they visited relatives. While there, Mrs. Hull underwent a major operation in a Fort Worth Hospital and is reported to be recovering nicely.

Roy Edwin Tims, Derwood Locke and Willie L. Scott who are attending Wayland College in Plainview spent the week-end here with home-folks.

F. S. A. GROUP MEETINGS

A group meeting for F. S. A., both old and new borrowers, will be held Thursday October 13th, in the District Courtroom in Anson, at 9:00 o'clock. The meeting is for the purpose of explaining the Farm Security Administration supervised, educational loaning program. The same type meeting will be held at Hamlin at 9:00 o'clock, Friday, October 14th at Ritz Theatre.

It is of the greatest importance that new applicants, as well as old borrowers, attend the meeting to be held nearest his community.

How F. S. A. families "live-at home" and produce their subsistence was well demonstrated by three borrowers visited on the tour through Jones County, Thursday, September 29th. The work in Jones County is under the supervision of Mr. Robert C. Cross, Rural Supervisor and Miss Lee Ann Williams, Home Supervisor.

The first Standard borrowers visited on the tour were Mr. and Mrs. Henry McEwen, Hawley community. They showed their frame garden which is 5' x 18' and in this greens are growing. They have canned 523 qts of fruit and vegetables. Two shoats, one calf, 125 hens and two cows supply the family meat, eggs, poultry and dairy products.

The next Standard borrowers visited were Mr. and Mrs. Thomas Peterson, Rt. 1, Hamlin. These borrowers, according to their farm records, have sold \$277.48 of produce in six months, while their plan for twelve months is to sell \$423.00 worth of produce. Five cows, 290 hens and pullets have helped make their progress possible. They have 290 qts of vegetables and fruit on hand.

Lunch for the group was served at the Peterson home through the compliments of the Chamber of Commerce, Anson and the Acme Lumber Company, Hamlin.

In the afternoon, the Tenant Purchase farm of Mr. and Mrs. Joe Ford, Rt. 1, Hamlin was visited, this being one of the six Tenant Purchase farms bought by selected tenant purchasers in Jones County during the year of 1937.

The supervisors explained to the group on the tour that each family selected by the county committee, which consisted of three farmers, have bought family sized farms. The families bought their farms with the aid of the committee and F. S. A. The families were loaned the full cost of the land and money for necessary improvements for reasonable comfort, health and convenience of the families.

The group saw the freshly painted house, built in cabinets in the kitchen and the five sheet-rocked rooms of the Ford home. The Ford livestock consists of twelve Jersey cows, two heifers, one registered bull, four sows, one boar, 256 hens and pullets clear of debt. The Tenant Purchase families carry out their farm and home plans under the supervision of the F. S. A. The families keep records of all income and expense. They plan to construct frame gardens, hot beds and fenced irrigated gardens during this fall and winter.

Cloth is now being made from bananas. That should be a nice little thing to slip on when you're in a hurry.

Fifty Years of Locomotive Development

(Above)—Santa Fe Railway's new 5001-class of freight locomotives is illustrated here in contrast to the modern automobile which appears small enough to fit easily into the engine's firebox. Ten of these mammoth power units capable of 70-mile-per-hour speeds are being placed in service. Their tenders carry 20,000 gallons of water and 23 tons of coal or 7,000 gallons of fuel oil. Nicked steel boilers enable these locomotives to carry a steam pressure of 310 pounds. The engine weighs 440 tons.

Fifty years ago, No. 684 was the latest thing in Santa Fe freight power. She served her heyday when freight train speeds averaged 10 miles per hour and 30 cars made a big train. Today, she is the last survivor of her class. At the Topeka shops she puffs

mightily as she shoves her modern sisters, as shown above, around the locomotive shop yards. She came from the Baldwin locomotive works in 1888 just 50 years ahead of No. 5004, which represents the latest engineering developments in steam freight engines.

THE GRAND JURY:

District Clerk, Robert Cross has furnished the Herald with a report of the work of the recent grand jury.

This jury reports they have been in session 4 days, that they examined 178 witnesses, returned 28 felony indictments, 1 misdemeanor, 5 "no bills" and have 4 cases pending.

All the above in four days, and that meant they handled a witness on the average of one every 10 minutes . . . not enough time to get at the bottom of law infractions. The report called for absolute co-operation of citizens with officers. They say not many crimes are committed under the eyes of the officers, therefore citizens must testify in the

grand jury room, freely and readily in cases pending. The report mentioned that it was hard to get witnesses to tell what they should, especially in cases involving driving while intoxicated. T. A. Bradshaw was foreman of the grand jury.

Little Willie's mother had just seen him put his thumb to his nose and wiggle his fingers at his little playmates.

"Willie!" she cried. "What do you mean by doing such a thing?" "Don't worry, mother," said Willie. "They know what I mean."

It is much less what we do than what we think which fits us for the future.—Philip James Bailey.

SENIORS CHOOSE QUEEN, ESCORT

This week is of great importance to the senior class of Hamlin High School, for this week saw the election of the Senior Queen and Escort for 1938-39. The Queen is Miss Loretta Ubben and her escort is Max Carlton.

This couple will represent the senior class in the "High School Queen Contest" and the coronation ceremony at the annual Junior Halloween Carnival.

—Reporter.

SOPHOMORE CLASS MEETING

Friday, Sept. 30, the Sophomore class met to elect their class queen and escort. As a result, Helen McCoy became our queen and John Brown Jr., was made escort. Official measurements of the pair were: Queen, height 5 ft. 3-4 in. Escort, height, 5 ft. 1-2 in.

All sophomores know that we have the best looking queen and the handsomest escort in high school, and we expect to put up a big fight to have them elected High School Queen and Escort, when the Junior Carnival comes. As Miss Thompson, our sponsor, said, "We may not have the winning queen and escort, but we have the least."

Also at the meeting we elected Mrs. Cherry for our class mother, Mrs. Hudson and Mrs. Bullard for assistant class mothers and Mr. W. L. Fletcher for class father. With these class mothers and father and Miss Thompson to help us, we expect to go places and do things this year.

JUNIORS ELECT QUEEN

The Junior class assembled in the auditorium, Monday, October 3rd, and elected Maxine Brundage, Queen of the class and J. E. Walton, Jr., as her escort. With this beautiful queen and handsome escort, we are expecting to be put in the spot-light at the Junior Carnival.

For our class mother and father, we elected Mr. and Mrs. Tom Teague, with Mrs. Mac Brundage and Mrs. Howell Burton as assistants.

Where ever you see the banner of purple and white you will know it is representing the Junior Class, for we chose those for our class colors.

Under the leadership of our efficient sponsor, we believe you will be seeing and hearing much of the Junior class of 1938-39.

With these parents and these pupils helping our officers, we hope to accomplish many things.

Curiosa Americana

By Elmo Scott Watson

Coincidence

IF YOU believe that a cow started the great Chicago fire in 1871, then you can also believe that a little negro boxer started the San Francisco earthquake in 1906. "Deacon" Jones was his name and when he was in his cups, which was frequent, he was quarrelsome and scrappy—the whole 105 pounds of him.

On the morning of April 18, 1906, he staggered into "The Tip," a famous barroom owned by Tim McGrath, and demanded a drink. The bartender, seeing his condition, refused to serve him.

"Deacon" persisted in his demand and upon being repeatedly refused became very angry. Finally he seized the bar rail and shouted "White boy, I's gwine pull yo' bar down if yo' don't ge me dat drink!" Refused again, he began to shake the bar.

Just at that moment came the first shock of the historic earthquake which not only destroyed most of San Francisco but "The Tip" as well. "Deacon" was buried under a pile of broken bottles and other debris that tumbled from the shelves.

A moment later he dug himself out of the wreckage—sober and repentant. Looking up into the face of the scared bartender he said:

"Please tell Mr. McGrath I'm sorry I caused such a disturbance!"

Father-Congressman

ONLY one Roman Catholic priest ever served in the congress of the United States and he wasn't even a native-born American.

He was Father Gabriel Richard, born in La Ville de Saintes, France, on October 15, 1767. Ordained a priest in 1790, he emigrated to the United States two years later and settled in Baltimore where he was appointed professor of mathematics in St. Mary's college.

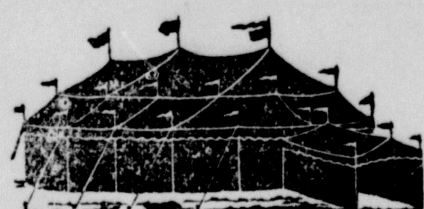

Then he was sent as a missionary to the Indians in the old Northwest Territory. He was stationed first at Kaskaskia, Ill., and in 1798 was placed in charge of St. Anne's parish in Detroit. He brought with him Michigan's first printing press and printed the first books and the first newspaper published in Detroit. Greatly interested in education, he aided in establishing schools in the territory and was one of the founders of the University of Michigan.

Father Richard was elected to the Eighteenth congress, serving from March, 1823, to March, 1825. He was defeated for re-election and returned to his church duties in Detroit. He died there September 13, 1832, and was buried in a crypt under the new St. Anne's church which was begun in 1818 and finished in 1828.

HEALTH NOTES

By Geo. W. Cox, M. D., State Health Officer

AUSTIN, Texas, Sept. 16.—Deaths from cancer in Texas reached a total of 4365 during the past year, indicating that a warning against cancer quacks and so-called cancer cures is justified by the State Health Department. Early diagnosis and competent treatment could have prevented many of these deaths, states Dr. Geo. W. Cox, state health officer.

"While newspapers, as a rule, do not carry advertising of this type, there are many other ways by which misinformation can reach the public. Undoubtedly there are many persons who, being thus de-toured from seeking proper medical advice, unnecessarily become cancer victims, while others not having cancer, are fleeced out of much money for a so-called cure," Dr. Cox added.

"There are but two ways of treating cancer. First, by surgery and second, by the use of radium or X-ray. Treatment must be started early and in the hands of a competent surgeon. Surgery is relied upon to remove cancerous tumors and is used in nearly two-thirds of the cases. X-ray or radium is used to advantage for the remaining group. Frequently the two methods are combined. Self-medication, serums, colored lights, pastes, salves and diets are valueless.

"The great protection against cancer is early diagnosis. Every case is an emergency and it is unfortunate that the majority of those with cancer do not seek medical advice early in the first stages of the disease. No hope should be placed in fake cancer cures or treatments. Rather, the annual physical examination and an immediate reporting to your physician of any symptoms which may be suspected to be the beginning of cancer should be relied upon. These symptoms are: any unusual bleeding from any body opening, any lump in the breast or other part of the body, any persistent sore, particularly on the face or mouth, and chronic indigestion. These conditions may not be cancer, but sometimes they are forerunners of the more common types of this disease. Where cancer is suspected, do not delay, but consult your physician at once.

"Pellagra, while not a communicable disease is of concern to the State Department of Health since many people die of it each year in Texas. Pellagra is a disease that is caused by the lack of proper foods. It comes on slowly and may not be recognized until the victim begins to have a sore mouth, stomach trouble and reddening and scaling of the skin. When these symptoms appear the disease has been present for some time," stated Dr. Geo. W. Cox, State Health Officer.

The longer a person has pellagra the harder it is to cure, so one should be on the lookout for the early symptoms, such as nervousness, indigestion and burning of the feet and hands. The disease may become so severe as to affect the mind.

Pellagra is not contagious. As long as a person eats enough of the right kind of food and is not otherwise diseased, he is in no danger even if he lives with a pellagra patient.

The prevention of pellagra depends upon eating the right kind of food at all times. To make sure that the diet is right, it should always include plenty of milk daily, some fresh meat, and as many fresh vegetables as possible. Tomatoes, whole wheat products, salmon, brewer's yeast, and fresh fruits are especially valuable. Having provided these essentials of a proper diet, the rest may be arranged according to family and personal likes. In this way pellagra may be avoided.

The master of the house rang for the maid. The girl was in the act of leaning pots and pans and, before he could tidy herself, her employer entered the kitchen to see what was delaying her.

He looked at her dirty hands and face. "My word Mary," he said, "but you're pretty dirty, aren't you?"

Mary smiled cooly "Yes sir," she replied, "but I'm prettier clean."

YOUR MILEAGE MERCHANT backs up his personal assurance of easy winter starting and oil economy by OIL-PLATING YOUR ENGINE —more than an oil change!

CONOCO GERM PROCESSED OIL

OIL-PLATING GUARANTEED to lubricate before any oil can circulate

JUST because this is in print instead of coming direct from Your Mileage Merchant's lips doesn't change the fact that he backs every word personally. How does he go through with that? By giving your engine the only OIL-PLATING. That's not mere words; it's what patented Conoco Germ Processed oil does.

Activated by an added man-made compound—added to oil's best natural qualities—added to the best refining—this exclusive Germ Processed oil adds itself direct to the inner engine surfaces... unites so thoroughly that every working part stays constantly OIL-PLATED.

Does the chrome plating on the bumpers drain down every time your car stops? Neither does OIL-PLATING in your engine. When you want to start up again, after hours of wintry parking—after nights or even weeks in the coldest garage—you've got ready lubrication faster than instantly!—in advance of the fastest oil-circulation. For drain-proof OIL-PLATING has stayed lastingly plated all the way up, to make things slide lightly and swiftly for your starter and battery. That also tells you why you're rid of costly starting wear. And OIL-PLATING stays in as long as you use Germ Processed oil. The gauge-stick backs Your Mileage Merchant!

GAS SUSPENSION BRIDGE WILL BE COMPLETED SOON

Further strengthening Lone Star Gas service to Hamlin, the new gas suspension bridge to carry the company's big line from Texas Panhandle over the Salt Fork of Red river is being pushed to completion. This new and stronger link in the gas system's service is about 12 miles north of Hollis, Okla., and replaces a structure destroyed in last spring's flood when debris of five other bridges bore down on it. Concrete for the anchors has been poured, the main piers are near-

ing completion and it is expected the bridge will be in operation before December 1.

The new span, with an elevation of 1770 feet above sea level, is 28 feet above the bed of the river and the pipe will be 16 feet above the high water mark set by the record flood of last spring. Total length of the bridge from anchor to anchor is 1,034 feet with 600 feet between the piers. There are two main piers, each to be surmounted by structural steel towers 67 feet high to carry the main cables from which the pipe cradles are suspended. Forty-seven feet of quicksand at the location for the north pier necessitated the sinking of this pier's caisson by air pressure. Two air locks were provided in the 50 foot long steel caisson which is seven feet in diameter. A compressor furnishes sufficient air pressure through an air hose to these locks to keep water out of the caisson as it is driven down. An experienced caisson pressure workman mans the centrifugal pump within the caisson, pumping water and sand out of the steel shell through a pipe provided for this purpose.

GET INTO THE SWIM

Next month, a week will be given to informing the public of the hazards of one of man's most destructive enemies—uncontrolled fire. Fire Prevention Week, which has been an annual event ever since it was proclaimed by President Wilson more than two decades ago,

will begin October 9th and run through the 15th.

A few vivid figures illustrate the importance of the week. Each year fire destroys about \$300,000,000 worth of property directly—and the indirect loss brings the total to the billion-dollar mark. Worse yet, it kills 10,000 people horribly—an average of 27 each day. This is what carelessness, ignorance and incompetence breed.

There isn't a hamlet in the country which won't be reached to some extent through Fire Prevention Week activities. And there isn't a citizen in the country who can provide a sound alibi if he fails to absorb some of the simple facts and information that are all that is needed to prevent and control most fires. Governors of states and other public officials will take part. Insurance organizations will issue pamphlets, run advertisements in newspapers and periodicals, and prepare window displays. Fire marshals and chiefs will speak. Every media of communication involving the spoken and printed word will be brought into play in a concentrated national effort to make the Week a success.

Believe it or not, fire prevention is fun—even as instruction in fire prevention is nowadays made dramatic and entertaining. It doesn't take much in either time or money. It doesn't take much in either time or money. It does pay tremendous dividends. Mark down the date of Fire Prevention Week on your calendar—and get into the swim.
